Working in the Netherlands?

Are you a refugee from Ukraine? Would you like to learn more about working in the Netherlands and what is important when you work here? You can find out everything you need to know during an appointment with WerkBedrijf Rijk van Nijmegen.

Am I permitted to work?

From 1 April 2022, all refugees from the Ukraine who are eligible under the European Union's temporary protection order can perform paid or volunteer work.

You need the following:

- Temporarily protected resident status¹ → you obtain this through the immigration and naturalisation service (IND) after registering in the personal records database (BRP)
- Citizen service number (BSN)
- IBAN bank account number

If you are going to perform paid work:

- You will receive an employment contract.
- You will have the same rights as Dutch employees, such as the rights to an appropriate wage, a safe workplace, breaks, holiday time, and holiday allowance.
- Do not accept cash payments for your wages. Request that your wages be deposited directly into your bank account and ask for a pay slip or wage statement.

Please note:

Working affects how much money you receive for living assistance. You are required to report your work to the municipality where you are staying.

¹ Sticker or an O document issued by the IND.

If you had a temporary residence permit in Ukraine, different rules will apply from 19 July.

If you are performing unpaid/volunteer work:

- The organisation where you are working must have a volunteer statement.
- You will receive a volunteer agreement.
- The volunteer work must be in the general interest of society. Volunteer work at community centres or churches is a good example.
- Volunteer work is not regular work that requires payment.
